

Oct 20/2016

Peter John M. Distributions Inc. in cooperation with guzzie+Guss and Health Canada is releasing this Public Notice regarding the Following Safety Gate and Gate extensions:

guzzie+Guss Safety Gate Model G+G301 & Gate Extension G+G320

G+G301

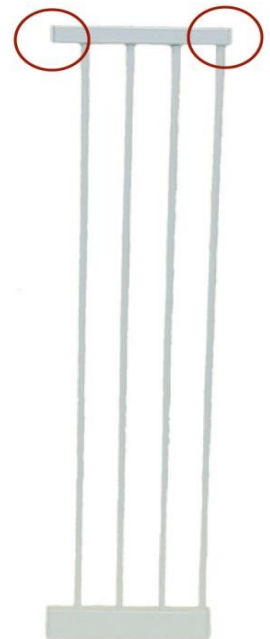

G+G320

These products were manufactured between Aug 2010, and Nov 2013, and available in stores all across Canada.

Approximately 1500 gates were sold in this time period
Approximately 700 Gate Extensions were sold in this time period

Manufactured in China

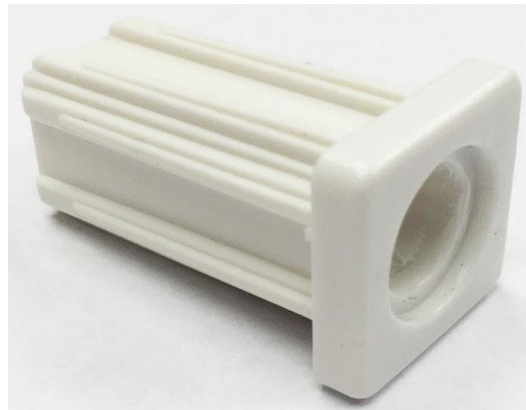

Description: This recall involves all guzzie+Guss Safety Gates (model number G+G301) (this gate was sold with a 8cm extension) and the 20 cm Gate Extensions (Model number G+G320) sold from August 2010 and September 2016. The logo guzzie+Guss is printed on the top release handle. The Model Number G+G301 ins printed on a sticker on the lower rail.

PETER JOHN M. DISTRIBUTION I N C .

All gates (G+G301) and extensions (G+G320) sold between August 2010 and September 2016 are recalled.

Please note: Under normal use and proper installation the insert plug (pictured below) can not be removed or will not self disengage from the metal tube of the G+G301 gate and G+G320 extension. The G+G301 Expansion Gate does not meet the decorative and protective coating requirements as prescribed in the Expansion Gate and Expandable Enclosures Regulations.

Consumers should immediately stop using the recalled products and dispose of them according to local municipal guidelines. If you have purchased the gate within the past 30 days, please return the gate with the proof of purchase for a full refund to the retailer whom you purchased it from.
